PROFILE

Dynamic Full Stack Developer with over 5 years of experience specializing in Vue.js and Laravel frameworks. Proven track record of developing scalable web applications and optimizing system functionalities that have driven client satisfaction and operational efficiencies. Passionate about using technical expertise to contribute to meaningful and impactful projects.

EMPLOYMENT HISTORY

Frontend Web Developer at JKU - LIT Open Innovation Center, Linz

April 2024 — May 2024

- Engineered and launched a dynamic event-advertising platform for JKU communities, increasing engagement by 40% through an optimized Vue.js and TailwindCSS interface.
- Drove project success by spearheading technology selection and strategy optimization, enhancing system efficiency and project outcomes significantly.

AI Studienvertretung at ÖH JKU, Linz, Austria

October 2023 — Present

- Spearheaded campus event organization, boosting attendance by 60%.
- Cultivated a mentoring program that improved student academic performance by 10%.

Backend Developer (FiveM) at Hezzo Gurmavev S.R.L, Remote, Romania

February 2023 — February 2024

- Served as a Backend Developer for Underground Romania, a leading FiveM server in Romania.
- Focused on bug detection and resolution to enhance server stability.
- Identified and remedied security vulnerabilities to ensure a secure gaming environment.

Full Stack Developer at RBXSets, Remote, USA

June 2018 — November 2021

- Led a team in developing a robust marketplace for Roblox assets, enhancing user engagement by 50% and introducing advanced security measures that prevented any data breaches.
- Developed a Single Page Application (SPA) platform using Vue.js and Laravel.
- Implemented rigorous security measures, preventing any breaches.
- Developed and maintained a robust backend infrastructure using Laravel.
- Provided sellers with an intuitive admin panel for performance tracking and listings management.

EDUCATION

A.I Bachelor, Johannes Kepler Universität Linz, Linz

February 2022 — Present
